

**Beilstein  
Bozen Symposium  
2024**

**AI in Chemistry and Biology:  
Evolution or Revolution?**

June 4-6, 2024, Rüdesheim, Germany

## **Instructions for Software Presentations**

### **Location**

The software demonstrations will take place during the coffee breaks either in a separate room close to the conference room or in the conference room at regular conference's time. We will provide more information on both the place and time in due course.

### **Presentation**

Each presenter has its own table at which he can demonstrate a selected piece of software to an interested audience. The software demo session is in total 60 min. The precise time of this session will be announced in time.

### **Presentation Material**

Due to practical reasons, please bring in your own device including adapters for your power plugs to demonstrate your software.
